

**NOTICE OF FILING APPLICATION FOR
PERMANENT EMPLOYMENT CERTIFICATION**

TITLE: Co-Portfolio Manager, International Asset Management

LOCATION: Moneda USA, Inc., 444 Madison Avenue, Floor 8, New York, NY 10022

DUTIES: Gather and assess company, industry and economic data in order to perform complex quantitative financial analyses and qualitative assessments of current and potential investment opportunities in Latin American credit markets. Lead the selection of the financial debt securities and management of the fixed income High Yield strategies. Analyze and recommend High Yield debt securities and distressed investments in the Latin American Region, including in debt restructuring processes. Guide the in-house investment department in preparation of presentations of investment cases on prospective or existing investments. Develop and maintain relationships with market participants including investors, prospective investors, and third-party financial services companies. Communicate regularly with key stakeholders in Latin American businesses, and meet to present findings and offerings from potential investors. Respond to changes in market- and country-specific conditions including overall market risk appetite, interest rates, exchange rates, and political developments, as well as relevant company specific information including the company's quarterly results, specific industry dynamics, and company restructuring process. Manage corporate financial risk in the position of buy and sell side corporate trader and buy side investment analyst. Buy and sell debt securities based on the financial assessment of the adequate risk-adjusted return demanded for a particular investment by utilizing the in-house investment team and external resources including financial services counterparties. Trade Emerging Markets (EM) cash bonds in local denominations and in hard currency. Execute transaction orders in the Latin American High Yield strategies with brokers and ensure that portfolios adhere to all regulatory, compliance, and risk management guidelines. Responsible for the financial performance, proper execution, and legal compliance of Latin American High Yield corporate strategies. Update portfolio position and cash balances to ensure they adhere to desired investment strategy. Collaborate with other Portfolio Managers and Latin American economists to help in formulation of high conviction risk allocations within Latin American countries and economic sectors, and with internal strategy, marketing, investor services, compliance, middle and back office teams. Participate in regular investment committees. Develop investment models, and review and approve company models that feed into portfolio construction. Determine the feasibility of proposed investment transaction by identifying key issues relevant to the particular transaction in light of industry climate, liquidity, and the financial position of the issuer. Meet and perform on-site due diligence of prospective and existing investments. Lead and analyze restructuring processes by working with external legal and financial advisors. Use Bloomberg Security Analysis and Portfolio Management and Excel Financial Modeling to generate complex risk-management models and analyses. Write periodical communications explaining investment philosophy, market outlook, portfolio performance and relevant events.

REQUIREMENTS: Bachelor's degree (or foreign equivalent) in Business Administration with a focus in Finance or Economics, or a closely related field, and 7 years of experience in the development and analysis of corporate financial models to forecast business, industry, and economic conditions for use in investment decisions, including: (i) analyzing and recommending High Yield debt securities and distressed investments in the Latin American Region using knowledge of debt restructuring processes. Experience must include 4 years (i) managing corporate financial risk in the position of either buy and sell side corporate trader or buy side investment analyst; and (ii) using Bloomberg Security analysis and portfolio management and Excel Financial Modeling to generate complex risk-management models and analyses. Experience must include 1 year trading Emerging Markets (EM) cash bonds in local denominations and in hard currency.

TRAVEL: 5-10% travel domestically and internationally.

SALARY: \$200,000/year - \$300,000/year

HOURS: 40 hours per week
